

Minutes  
GPAMA Monthly Meeting  
26 August 2026

Meeting was called to order at 1840. Quorum present. (EW, MM, RY)

Previous sets of unapproved minutes (May, June, July) were approved. Treasury report indicated \$93.51 in checking and \$5 in savings.

Old Business discussed included an update on the BernCo glyphosate moratorium. The moratorium was rescinded, and glyphosate use is allowed again. The places where glyphosate can be used are supposed to be restricted, but we received information that it is being used in or near sensitive areas. We discussed writing a letter to the editor to either *Paper* or the *Journal*. We also discussed the update on the parking signs for TogetherSource. RY and MM will check on prices.

New Business raised included the attention automated licence plate readers and FLOCK cameras are getting. RY will check on what is happening in RR and Sandoval County.

Other topics of discussion were updates regarding Project Jupiter and mining issues in or around Grants, the Socorro County Fair. GPNM will do something with these. Another topic of interest was the lawsuit by the Forward Party.

Announcement included that VFP-063 is showing *An Ordinary Insanity* on September 5 at ACPJ.

Meeting adjourned at 2129.
