

Minutes
GPAMA Monthly Meeting
27 May 2026

Meeting was called to order at 1852. Quorum present. (EW, MM, RY)

Minutes from February and March were approved after correction of a typo. Treasury report \$93.51.

Old Business--We briefly discussed the Sustainability Fair and that it went okay and noted that there seemed to be fewer people compared to last year. EW gave an update on the glyphosate moratorium and reported that it is expected to be before the commissioners again next month. EW had the banner at Civic Plaza on May Day.

New Business--No Kings IV, we haven't heard anything about a date for a local event. **We agreed to replace the signs on the parking spaces** instead of, or before, repainting the parking space lines. We will use GPAMA funds, assuming we will be able to get stickers.

We will move the July meeting from the 22nd to the 29th to accommodate travel to the GPUS National Meeting, July 23-26.

We will try to revive the GPAMA Instagram account. The link to the recording of the VFP meeting with a discussion on Project Ranger will be shared. We are waiting for the next comment period for Project Jupiter.

Announcement--There is an on-line movie, free to view on June 4th, about the nuclear threat.

Meeting adjourned at 2035.
